The internal audit plan for 2021/22 was approved at the April 2021 meeting. This report provides an update on progress against that plan, the changes to the plan and summarises the results of our work to date.

As the developments around Covid-19 will continue to impact on all areas of the organisation's risk profile, we will continue to work closely with management to deliver an internal audit programme which remains flexible and 'agile' to ensure it meets your needs in the current circumstances.

2021/22 Internal Audit Delivery – Completed

We have undertaken a follow up to review the progress made to implement the previously agreed management actions from the IT Control Framework Review (5.20.21). The progress of this review have been included in section two of this report. [\[To note\]](#)

2021/22 Internal Audit Delivery – In Progress

We have commenced our fieldwork for three reviews, two of which were not initially included in the Internal Audit Plan for 2021/22. The progress of each of these has been summarised below:

Fraud and Bribery Risk Assessment

We have commenced fieldwork in relation to fraud and bribery risk assessment. We are currently liaising with the Chief Finance Officer in order to obtain relevant documents in order to carry out the review. On conclusion of fieldwork, we will provide the organisation with a fraud and bribery risk register that will include the likelihood of occurrence and the financial, reputational and operational implications. The risks will be scored both inherently and residually, having regard for controls and assurances in place.

One CAM – Governance and Decision Making (Additional review)

The Committee requested an audit of One CAM governance and decision-making. The fieldwork for the audit is in progress and is expected to be completed by the end of November. The final report will be presented to the next meeting.

Payroll (Additional review)

We have commenced fieldwork in relation to an additional request for a payroll audit, this was delayed due to CPCA staff sickness. We are currently liaising with the HR Business Partner and the Assistant HR Director in order to obtain relevant documents in order to carry out review. [\[To note\]](#)

Responses to questions asked at previous meeting in September 2021

Action recorded at the 24 September 2021 Audit and Governance Committee Meeting: The Committee requested feedback on how the Internal Auditors could become involved in the development of policies and project management at the CPCA be provided within the next Internal Audit update:

Development of policies – An effective way to use an Internal Audit (IA) team is to consult with the auditors when policies are being developed to ensure that good practice points have been considered. The IA team could therefore provide a ‘critical friend’ review of such policies, where appropriate, at the development stage. Please note that it is management’s responsibility to propose / approve (as appropriate) the final policy and ensure they are adhered to.

Project Management – We have been working with Officers on a joint working protocol which streamlines the approach for planning, delivery and reporting of internal audit work. As part of this, it was agreed that IA may be requested to participate in continuous/ongoing assurance activities and this could for example include a Project. The IA team could also be requested to sit in on project management meetings (for live projects) and provide ongoing advice / a critical friend review in relation to different aspects of the project (governance, risks, issues etc). Clearly the IA team could also be requested to undertake assurance or advisory reviews of projects, including lessons learnt reviews. We have agreed with Officers that any such work in relation to projects will be discussed and agreed on a case by case basis, with updates provided to the Committee via our progress reports.

Independence and objectivity will remain a core consideration during the delivery of any additional work, and should any concerns arise, these will be reported to the Audit and Governance Committee, and the Chief Executive and Chief Finance Officer. [To note]

Other Matters

Changes to planned delivery 2021/22 – We have summarised the changes to delivery of the current internal audit plan that have been made since the last audit committee in September 2021 in Appendix B of this report.

Sector Updates - We have also included some sector updates in Appendix B which highlights some of the current issues being faced in the sector and the areas that the Combined Authority may wish to consider. **[To note]**

This is further detailed in section two and Appendix A below.</p>

<p>We have also captured the progress made by Socitm Advisory and CPCA against the six actions which were marked for implementation by 31 December 2021 and have noted the progress of these in section three below. In summary, five actions are in the process of being implemented of which two demonstrated sufficient progress to allow us to deprioritise the management action rating. Information briefings and Sector updates

[Councils' role supporting the digital skills pipeline](#)

The Local Government Association's (LGA) online resource, alongside its 'LG Inform forecasts for digital employment', outlines the key roles councils play in supporting local skills progression and highlights a number of successful interventions undertaken to date.

[Local auditor reporting on local government](#)

The Public Accounts Committee (PAC) has published a report on local government in England, in which it warns that 'without urgent action from government, the audit system for local authorities may soon reach breaking point.' The PAC report follows a [National Audit Office report published in March on the timeliness of local auditor reporting](#), which identified that 55 per cent of local authority 2019-20 audit opinions missed the extended statutory deadline of 30 November 2020.

The PAC report makes a series of recommendations for the Ministry of Housing, Communities and Local Government (MHCLG) including that it:

- works with the Financial Reporting Council and accounting institutions to implement quicker training and accreditation to increase the number of suitably qualified auditors;
- ensures that the Public Sector Audit Appointments' (PSAA) next procurement brings fees into line with the cost of the audit work; and
- writes to the committee by September 2021 setting out its plans to get local audit back on timetable, its contingencies should more audit firms leave the market and how will it address the need for strong system leadership now.

[Boosting value for money in the council finance system](#)

The MHCLG has announced plans to strengthen council finances, reduce risk to public funds and ensure councils are delivering value for money for the taxpayer. Changes to the capital finance system will see improvements in the way that risks are monitored and will drive effective decision-making and ensure council funds are spent effectively.

The MHCLG has launched a [consultation](#) on its proposals for how the new regulator, the Audit Reporting and Governance Authority (ARGA) (which replaces the Financial Reporting Council (FRC)), should act as the system leader for local audit within a new, simplified local audit framework. Alongside this consultation, the government has published two responses to previous local audit consultations – [allocating £15m to local bodies to help with the costs of audit](#), and [changes to regulations that will help to provide greater flexibility in payments for audits](#).

[Local Authority Capital Finance Framework](#)

The MHCLG has published a policy paper setting out its proposals for local authority capital finance and provides an update on the government's work so far. It clarifies objectives, what the MHCLG will do to meet them and what is expected from local authorities.

This document sets out the government's plans for strengthening the current system while protecting the principles of local decision making. It sets out plans for both improving the MHCLG's role as steward of the local government financial system, by ensuring that it has the data to effectively monitor risks in a timely way, and to strengthen the current capital system so that it remains effective in driving good decision making and preventing excessive risk.
